CERTIFICATE OF SURVEY

Attached is a copy of a survey completed at the request of Morris White of Greene County, Indiana. The original survey was completed on June 10, 1987 and was revised as a legal survey on June 25 and June 27, 1988. The line defined by said legal survey is the west line of the east half of the Southeast Quarter of Section 20, Township 6 North, Range 6 West, in Greene County, Indiana.

The stone located at point "1" is marked with a "+" and is consistent with other monuments found on the north line of Section 20, both in location and type.

The stone located at point "2" was unmarked and was originally set for property in Section 29. This stone is inconsistent by markings with other stones in Section 20 and is in error in location from other accepted property corners on the south line of said Section 20. For the above reasons, the stone was ignored and the actual length of the south line of the southeast quarter was recorded and equally divided into halves. This corner was monumented by a steel rod marked with an "+" and is intended to to be the southwest corner of the East half of the Southeast Quarter.

Steel rods were also set on the west line of said east half at points 1318.00 feet and 2474.29 feet north of said southwest corner. A steel rod is also set in the center of the county road on said west line.

See attached sketch for monument location set and found.
